

POWER OF 1

THE EEG DE285 STREAMLINES PROGRAM MONITORING

EEG, the first name in workflow for broadcast and post production, unveils the latest advance: The DE285 HD Caption Decoder/VANC Monitor.

Now you can view all your ancillary data on a single HD monitor, with one cost-effective unit.

The DE285 has the deepest monitoring capabilities ever available on an HD video overlay device, plus powerful Web-based analysis tools that dedicated waveform monitors can't match. That's one extreme monitoring machine.

TOTAL CONFIDENCE – EEG AND THE NEW DE285 HD.
