

END DTV CAPTION FRUSTRATION

Meet the Legalizer: EEG'S CB512

Stop tearing your hair out over HD captioning problems! EEG's award-winning **CB512 DTV Caption Legalizer™ /Relocating Bridge**, solves difficult-to-debug captioning problems by ensuring a fully compliant data stream. With the Legalizer in line, broadcast engineers' downtime from DTV captioning-related difficulties is virtually eliminated.

EEG's **Legalizer** ensures that broadcasters' caption data complies completely with DTV captioning standards, efficiently fixing common errors introduced in closed captioning flows by SD-to-HD upconverters or incomplete 608-to-708 translation.

There is a solution: the CB512 DTV Caption Legalizer™ from EEG.
